SPADER FOR DEEP WORKING WITH 3 SPEED LEVER OPERATED CHANGE

The 505 series Spaders are the biggest ones of Tortella brand. They're extremely heavy and can work in combination with high-power tractors; they can also be ideal for being used in open fields by contractors and big companies. They ensure the achievement of the max. working depth (up to 50cm), the perfect planting of the remaining vegetable substances and the improvement of soil dewatering, that remains soft and without any working sole. These spaders are particularly indicated for hard soils where other machines won't be able to achieve satisfying results.
