HEAVY ROTATING POWER HARROW WITH GEAR CHANGE AND TAPERED ROLLER BEARING

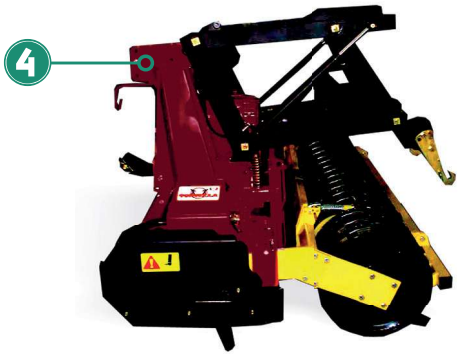

The E7 series rotating power harrows can work in combination with high power tractors. They are equipped with jag roll, cage roll and Packer roll or with a spiral series system. They have 4 speed gear change, mobile sides, 3 point linkage with rockers adjustable in legth, sharpening and smoothing bar adjustable through screw jack, joint with clutch and fast roll controller. Thanks to their rear 3 point linkage (optional), they can be used in combination with seeders. The version with rapid change of blades is also available. These machines are the perfect solution for contractors and big companies, for continuos and hard use, to work on hard and rocky soils and to cover wide areas in short times.
