## FIXED ROTARY CULTIVATOR WITH CHAIN DRIVE

The T0 series rotary cultivators are machines with 1 speed chain drive, perfect for low-power tractors (from 16 to 35 hp). They're ideal for the soil preparation in each type of farming and suitable both for the soil refinement in the preparation of the seeding and for specialized farming such as vineyards, fruit-farms and vegetables gardens. They're particularly appreciated thanks to their heaviness and low power consumption.
