ROTARY CULTIVATOR WITH GEAR DRIVE

The T4 series rotary cultivators are machines with gear drive and 4 speed lever change, perfect for the soil preparation in each type of farming and suitable, in particular, for the soil refinement in the preparation of the seeding and in specialized farming such as vineyards and fruit-farms. Their heaviness makes them particularly recommended for working hard and compact soil, in combination with tractors from 40 to 70 hp. On request they can be provided with jag roll, cage roll, Packer roll and spiral roll.
